Every Second Counts from the first moment stroke symptoms appear

If you're having any of the stroke warning signs, get care immediately. Congratulations to the 19 hospitals that have successfully achieved The Joint Commission's Primary Stroke Center Certification.

Carolinas Medical Center	Moses Cone Health System
Carolinas Medical Center – Northeast	Novant Health, Inc./ Southern Piedmont Region/ Presbyterian Health
Duke University Medical Center	Pitt County Memorial Hospital
First Health Moore Regional Hospital	Rowan Regional Medical Center
Forsyth Medical Center and its Affiliates	Stanly Regional Medical Center
Frye Regional Medical Center	Thomasville Medical Center
Gaston Memorial Hospital	University of North Carolina Hospitals
High Point Regional Health System	WakeMed Health and Hospitals
Iredell Memorial Hospital	Wake Forest University Baptist Medical Center
Mission Hospitals, Inc.	

The Joint Commission maintains the current list of North Carolina health care organizations that have achieved a Certificate of Distinction for Primary Stroke Centers. To learn more, please visit www.jointcommission.org.

SPECIALIZED STROKE UNITS

- Provide methodical and organized stroke care with a three-hour goal from transportation to treatment.
- Provide management of strokes by stroke specialists, including 24-hour access to a timely consult.
- Provide appropriate recognition and management of stroke complications by trained professionals.
- Meet the needs of stroke patients by trained ancillary staff who assist in problems related to health insurance, appointments, and rehabilitation services.
- Provide a better likelihood of recovery by patients as compared to hospital ICUs.
