

The NC Stroke Association's "Cycle for Life...2006" bike tour was a success, and we exceeded our expectations. We are grateful to our Corporate Supporters and to all of the tour cyclists and attendees.

We thank the following people:

- Our volunteers who provided an array of services from Registration to Rest Stops, and anything in-between
- Stroke survivors, and for family members/friends of stroke survivors or of those who have died of stroke, for cycling in the tour and raising money.

The monies the tour raised will enable the NC Stroke Association to continue its growth in stroke prevention and education.

The final outcomes are as follows:

259 cyclists

60 additional attendees

Gross: \$50,968

Net: \$40,267

We are grateful to many whose effort and support combined to produce a successful event. The 2006 bike tour net doubled from the 2005 bike tour.

I will keep you informed as we plan for 2007. In the meantime, the NC Stroke Association will continue in its stroke program expansion, throughout North Carolina.

Sincerely,

Beth Parks
Executive Director
